

Burlington Recreation and Parks Camp Green Leaves 2020 Summer Camp Update

As you all know, this has been a very unpredictable time and a huge shift from our “normal.” We wanted to reach out regarding the updates for the 2020 Camp Green Leaves season.

It is with great sadness to announce that for the first time in over 50 years, we will not be operating Camp Green Leaves this summer. This decision comes after several lengthy discussions and monitoring public health data and trends. With social distancing mandates still in place, it is not feasible to hold camp at Lake Cammack. The camp site consists of a one room building and close eating quarters that would not adhere to social distancing. Additionally, it is not feasible to transport campers to and from camp daily due to bus sanitation protocols.

To stay connected with our families this summer, we will be providing creative virtual activities for Camp Green Leaves campers. If you are interested and able to participate, please email Elizabeth Hill at ehill@burlingtonnc.gov. It is our hope to go virtual by the beginning of July.

While this was not an easy decision, this is the best decision to keep campers and families safe. We hope you all understand and we hope to see you virtually and in-person next camp season. Regarding our monthly Special Population programs, we are awaiting the guidelines of Governor Cooper’s phase 3 re-opening.
